July 2003

Tang Kok Lim  
The Plastering Company  
Auckland

Building a larger Country House requires a team of varying skills.

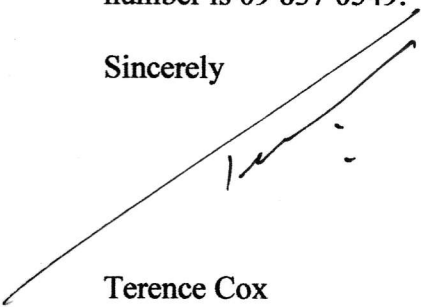

A plastered finish to both internal and external walls throughout was a major part of the Project.

We required a certain look which was practical and Mediteranean in presentation.

We can only speak very highly of the contribution from The Plastering Company. The high stud heights and substantial archways and colonade pillars were taken in their stride. Communication was the key element as well as a flexible professional attitude.

We recommend The Plastering Company highly and for further detail our business number is 09 837 0549.

Sincerely

Terence Cox  
Director  
HighRidge- A Country House
