Re: Testimonial for Plastering works.

To Whom It May Concern:

I write this testimonial, as a recipient of the services of "The Plastering Company". They have shown incredible professionalism, technical prowess, and good management. I have been incredibly impressed by the operation and would not hesitate to recommend this company to anyone that was after an above average quality. I would go so far as to say, that they are the best I have used.

I wish them much success, in a market place that needs quality to ensure prevention of rotting houses and the like. The exterior of any house together with its finishes is fundamental in keeping water out. I have trusted "The Plastering Company" with my houses and they have proved their weight in gold. The houses have not cracked and the plastering looks like it did the day it was applied.

Without appearing to have shares in this company and I assure you I do not, I welcome anyone that wishes to see the product in "real life" to 14/273 Pinecrest Drive, Gulf Harbour.

As a developer, I have a vested interest in the longevity of the houses we build, It is therefore great to have reliable subcontractors who will always perform, thereby ensuring the success of my business too.

Yours Sincerely

PP M De Magalhaes
